South West Region Taster Programs 2024

KINGARROY CAMPUS

The Year 10 Taster Program allows eligible high school students to try out an industry area without needing to commit to a full qualification or apprenticeship. Students get to see if an industry area is the right option for them, or test out a potential career path that they're considering following in the future. This program is subsidised by the Queensland Government and is offered at no cost. Students will complete individual competencies from various programs but will not complete a full certificate or obtain any QCE credits.
